How can we help?

We understand that simple and cost-efficient executions of your ETF trade can be just as important as the performance of the ETF itself. As such, we are on hand for all enquiries relating to buying or selling of the HSBC ETFs. The team is constantly monitoring liquidity and pricing and communicating with Authorised Participants and Liquidity Providers. We take care to understand your specific requirements and provide expertise to help in your decision-making.

Our services

-  **Pre-trade analysis** – Liquidity analysis looking at both secondary and primary market liquidity. Market impact and expected trade costs for buy, sell and switch trades.
-  **APs and liquidity providers** – Connections with all key ETF liquidity providers in Europe. Facilitates access to axes, inventories and distribution trades.
-  **Secondary market surveillance** – Monitoring of spreads, volumes and trading data across all exchanges and listing venues.
-  **Market intelligence** – ETF flows and global trends.
